2024 - 2025 ALLSTAR PREP SCORING SYSTEM

Changes from 2023-2024 Rubric

Pyramid Baseline Score: Maximum score increased and participation driver/booster removed.

Running Tumbling: Pathway to Maximum Baseline score is easier to attain. (Fewer passes are needed to get the top baseline score.)

Tumbling - Innovation/Variety: This driver was split into 2 different areas. Each worth 0.1. Variety is an objective score on the 2024-2025 scoresheet, while Innovation is a subjective score.

Verbiage Change: On the difficulty portion of the rubric, the word driver has been changed to booster to help eliminate confusion. (Technique Drivers are used for deducting from the starting score, while Baseline Boosters are used to increase the score after the baseline is determined. Additional words were changed to be more clear on the expectations.

Layout of Information: The objective areas of the rubric are separate from the subjective areas. The Baseline Boosters are subjective scoring areas. The list of skills has been redesigned to make it easier for a coach to see all of the specific skills of a level on one page. (All level 1 is on a page, all of level 2 is on a page, etc.) All additional information is on a separate page.

Elite Skills: List has been adjusted for both building and tumbling. (5-28-24)

ADDITIONAL INFORMATION

ADDITIONAL STUNT/PYRAMID INFORMATION

- Body Positions: Stretch, Bow and Arrow, Arabesque, Scale and Scorpion.
- Lib, torch, hitch, and platform are not considered body positions.
- Release style stunts must be free of contact from the bottom of the foot to count towards difficulty credit as a release style skill
- Elite Skills that are synchronized or rippled must be the same skill in order to count towards your Majority, Most, or Max quantity
- Pyramid structures consist of two or more stunts connected to one another
- When Most/Max is used in the pyramid difficulty chart, it is only referring to the structures.
- Building Skills will get Stunt or Pyramid difficulty credit. They will not count in both categories at the same time. If the stunt is going to connect to another stunt, it will count as a pyramid skill.
- Refer to Rules Glossary for additional definition of skills - (Inversion, Tic Tok, Twist, Release Move, Release Style, Bracer, Etc)
- **Must be fully released from all athletes on the performing surface to be considered a dismount.**

STUNT DIFFICULTY COED CREDIT

Only skills listed under Coed Style Level Appropriate Skills list will count

Rippled or synchronized in the same sections without recycling athletes

Stunts must be held for 4 counts. Counts begin once the stunt hits the intended level

Coed stunts must dismount to the performance floor to receive full credit

Coed stunts that become part of a pyramid will not receive Coed credit

COED STYLE

Based on a group of 3 (Base, Flyer & Support Person)

Entry must be a Toss or Walk-in

Base must be directly under the stunt

Base and Support Person cannot be chest to chest

Only 1 Coed Style Stunt is required for Levels 3-5

Coed Style Stunt counts towards the requirement regardless of the gender of the athletes performing the stunt.

ADDITIONAL TUMBLING INFORMATION

L1 - Cartwheel does not get standing tumbling credit.

Pauses, Steps, or Cleans between skills will not count as connected skills

Tumbling passes must land on feet **ONLY** to receive level appropriate difficulty credit (ex: Jump 3/4 front flip to seat, back handsprings which lands in a prone position would not count)

Jumps within a pass will not break up the pass (ex: Toe Touch - BHS - Toe Touch - BHS is 1 pass in L3)

T-Jumps are not considered a jump and will break up a pass into two separate passes.

Skills that are illegal for a lower level do not automatically make them a Level Appropriate Skill for a higher level.

L2 - No L1 skills out of a round-off that are illegal in L1 will count for level appropriate credit.

Skills that are not required to be synchronized may be cumulative to meet a difficulty requirement.

ADDITIONAL JUMP INFORMATION

Jump skills must land on feet to be receive difficulty credit (ex: jumps that land on knee(s) or seat would not count)

Advanced Jumps: Pike, Right/Left Hurdler (Front or Side), Toe Touch

Jumps must use a whip approach to be considered connected. Whip approach: continuous movement through swing connecting 2 or more jumps.

OBJECTIVE VS. SUBJECTIVE SCORES

Subjective scores are assessments made by judges or officials based on their personal interpretation rather than objective, quantifiable measurements. Unlike objective scores that are determined by clear, measurable criteria, subjective scoring relies on the judges' observation and evaluation of the performance. The subjective areas of the scoresheet add an element of artistry and interpretation from the judge that is scoring the team.

The baseline score areas are objective areas of this scoresheet. The baseline boosters, choreography/presentation, and Routine & Dance portions of the scoresheet are subjective. Additional objective areas: Jump Difficulty and Toss Difficulty

Utilization of connected skills: Skills performed demonstrate immediate transition from the completion of one skill to the initiation of the next skill.

Movement and usage of floor: How the stunts performed change position, evolve, transition, and maneuver in reference to each other and the floor.

Variety of skills: Utilization of different elements and/or skills.

Quantity of skills: Display of a cumulative number of skills throughout the routine, performed by one or more groups.
